

Pre-observation Conferences

Questions to Consider Asking:

1. Tell me a little about this class.
2. What is your purpose/objective for this lesson?
3. Why did you choose that?
4. How does it fit in with your student learning outcomes (objectives) for this semester?
5. How will you inform students of the purpose/objective for the lesson?
6. How will you know if students achieve the purpose/objective for this class?
7. How will you let them know how you will assess their achievement of this purpose/objective?
8. How will you start the class?
9. Why did you choose to start this way?
10. What are your strategies for helping students to accomplish the objective/purpose?
11. Why did you choose these strategies?
12. What questions have you planned to use in class?
13. Why did you choose these questions?
14. How will you close the class?
15. What else would you like to tell me about this class that will help me observe it to be able to provide you with the most useful feedback?
